

Sing What You Can't Say

Hoobastank

Right now its hard for me
To let go and open up
To tell you how I feel
And what I m thinking of
I know it hardly shows
It doesnt mean that I m not trying
Three little words
One simple thing
I never get it right
So here I am
Singing what I just cant say
Need you to understand
I love you doesnt quite explain
So I m gonna sing what I cant say
I m not the type to wear my heart upon my sleeve
I m not an open book for everone to read
And I hope you dont confuse
My silence for just not caring
Three little words

Should say it all
They just wont do tonight
So here I am
Singing what I just cant say
Need you to understand
I love you doesnt quite explain
So I m gonna sing what I cant say
Its such a simple thing to say
Somehow it doesnt quite explain
No it never comes out right
So here I am
Singing what I just cant say
Need you to understand
I love you doesnt quite explain
So I m gonna sing
Here I stand
Singing what I just cant say
I ll do the best I can
I love you doesnt quite explain

So I m gonna sing what I cant say
