

# The Voice Inside

## Eden's Curse

Don't judge a book by it's leaf  
You know a \* that's once been said  
I'm not the kind who's ease the aggrieve  
By the things that i have read  
For my mother she once told me  
You know you've gotta live your dreams  
And i'll keep her words inside me for all eternity it seems I fought the pain some how  
I guess when others would surely drown  
Well i'm not that kind of men who lets his guard fall down  
For my father he once told me don't let them bring you down  
And i've kept his words inside of me  
I felt the pain within my heart  
Still hold the memory deep inside  
And i see it in a dream  
When i close my eyes at night  
Now the greatest gift of this life  
Memories that i'm alive  
I'll pray i never stop hearing the voice inside
