

Stay

Bonnie Bianco

You are my life you are my only one desire
You're the air that I breath tonight
Won't you stay here beside me stay
When I see you there's a glow from the stars above
Quess they know that I'm so in love
Yes I'll stay here beside you stay
Day after day (after day)
Feeling love in the evening sun till you came
And you were the one (yes you are)
Now I'll stay here beside you stay
Well remembered dreams of a foolish parade

Didn't need to persusde you hungry for a smile
In the morning moonlight that'll be alright with you
Take my hand
All I can do is to dream of you all fay through
Close my eyes all I see is you
Yes IÂ'll stay here beside you stay
Stay by my side you're the air that I breath tonight
All I want is to hold you tight
Yes I'll stay here beside you stay
Forever - here we'll stay tonight
Here we'll stay
