Talk Show

The New Deal

The whole world is watching me
As I light up the TV screen
My life a parade
But Ie got it made
I hope everyone will seeI want my ratings to go up
I hope you all wish me luck
Il act like I care
About your welfare
And Il pretend Il stay in touchI want to be on your good side
Ie got nowhere else to hide
Everything that you hear
May not be sincere
At least my voice is amplifiedI think my credibility has gone away
The colors on your television will turn gray
Il make a living while i exploit everyone
I never thought this way of life would be so funPlease come onto my talk show
Il share everything I know
