Amtrak

Babybird

Now won't you chugga chugga chugga chugga chugga (x4)
I know you hear this train comin',
rumblin' down the track
Dont miss out on this pimpin' shawty,
it ain't comin' back
I'm steam rollin', no controllin' while im whippin'
Smoke, stackin' still crackin' while im switchin'...gears
It makes it hard to hear wit 15s in the caboose
I'm more southern than Norfolk, bitch thats why they love what I do
Caution.. Danger
When I'm on my shit, there ain't no slowin' down
Pickin' up the loners thats horny whenever I'm in town
Yellow-bellies, them Cocoa Browns
They love to give me that
choo-choo choo-choo sound
I toot my horn to all them haters mumblin'
'Cause i know they hear that train comin'[Yeaaaaahhh bitch!]I know you hear this train comin' ... Ahaaa !You know you want to ride on my locomotive
And I'll beat(?) the brakes off the train 'til you can't control it
Now won't you chugga chugga chugga chugga chugga (x4)I know you hear this train comin'
You best grab your bags
Dont worry 'bout your partners and them, just bring yo' ass
Now let me break it down... before we go
Don't hold back what the good Lord gave you...
Let it show
Now all aboard for all of those that claim they down to get it
I advise you to exit right now if you ain't down wit it
Really Im just tryna free yo' mind from its prison
I'll show you how to get off if you just listen
You'll never want to leave here if you just visit
Plus ain't no more cars comin' and time is tickin'
Yo' homegirl just aite .. I'm kinda picky
But you a boomin' business
I hope she got a ticket
I know you hear this train comin'[Yeaaaaahhh bitch!]I know you hear this train comin' ... Ahaaa !You know you want to ride on my locomotive
And I'll beat(?) the brakes off the train 'til you can't control it
Now won't you chugga chugga chugga chugga chugga (x4)"All aboard! Aw you the last one?.. Let me see yo' ticket... Where you tryna go now?.. I don't think this gone get ya there... Yeah, I could take you though, if you

really wanna go there... You gotta be just my type shawty..."
