

# You Are All I Need

## The Shadowboxers

I got a worry deep in my mind  
That I'll be lonely 'til the day I die  
Then I see you and I believe  
You are all I needI got a getaway down by the coast  
That I can run to when I need it the most  
But that's all over, cause it's you and me  
You are all I needI just know in the end  
If it's time it will take then it's time  
I will spend I don't need anything  
Cause it's already taken its hold on me  
Give a little wave up above  
To whatever created this love  
I can't say if it's bigger than me  
All I know is you are all I needDon't need money, don't need fame  
Don't need people knowing my name  
All that folly don't mean a thing  
You are all I needI just know in the end  
If it's time it will take then it's time I will spend  
I don't need anything  
Cause it's already taken its hold on meCome whatever big or small  
If it breaks me and I should fall  
Nothing's ever as bad as it seems baby  
You are all I need  
I'm gonna take my time, catch my breath  
Let the cool air fill my chest  
I'll settle in, you know this ain't no passing thing  
You are all I need  
You are all I need  
You are all I need
