Vermin

Vermin

Hordes of disgust
Hungrs, hasty, roaming at night
Red eyes leering
Apparitions of the darkest kind
Heinous rodents
The past of the modern agglomeration
Living terror
Indestructable abominations
Symptoms ofthe fulminant deseases
The number of infected ones increases
Inimical towards the human race
Death in it's most efficient way
Ghastly creatures
Enticed by decayed filth
Abjective vectors
Crawling in fermenting dirt
Seat of infection
Wallowing in stinking slime
Malicious horror
Still unaffected by time
Spreading an awful and deadly zymotic
Whole parts of mankind contaminated
Bubonic plague, immortal enemy
Several populations attained
Verrucous corpses lie in the alley
Mephitic cadavers are rotting away
The livin covered with furuncles
Vermin, infesting another decade
