

# Shine

## Krystal Meyers

The way we look tonight  
I know nobody else could get in the way this time  
Just can't stop the light  
I know nobody's gonna get in the way of my shine  
It's futuristic, kinda mystic but I like it, like it  
It's so realistic, thought I missed it till I tr-tr-tried it  
And it won't let me go, it's not that typi, typical  
Ain't nobody, rock electric shock could get this glow  
The way we look tonight  
I know nobody else could get in the way this time  
Just can't stop the light  
I know nobody's gonna get in the way of my shine  
Cyberdelic, hyperstatic, I'm in orbit alright  
You've got me feelin' like a million, got me flyin' so high  
I, I just can't help myself, it's You nobody else  
I, I just can turn it down, let it fade or burn it out  
The way we look tonight  
I know nobody else could get in the way this time  
Just can't stop the light  
I know nobody's gonna get in the way of my shine  
The way we look tonight  
I know nobody else could get in the way this time  
Just can't stop the light  
I know nobody's gonna get in the way of my shine  
My shine  
My shine  
You can't get in the way of my shine, get in the way of  
You can't get in the way of my shine, you can't, you can't  
You can't get in the way of my shine, get in the way of  
You can't get in the way of my shine, you can't, you can't  
Cyberdelic, hyperstatic, I'm in orbit alright  
You've got me feelin' like a million, got me flyin' so high  
I, I just can't help myself, it's You nobody else  
I, I just can turn it down, let it fade or burn it out  
The way we look tonight  
I know nobody else could get in the way this time  
Just can't stop the light  
I know nobody's gonna get in the way of my shine  
The way we look tonight  
I know nobody else could get in the way this time  
Just can't stop the light  
I know nobody's gonna get in the way of my shine  
You can't get in the way of, I'm in orbit alright  
You can't get in the way of, got me flyin' so high  
You can't get in the way of, it's You nobody else  
You can't get in the way of my shine, you can't, you can't  
Got me flyin' so high, it's You nobody else
