

# He's Always There

CeCe Winans

He's always there to brighten up your day  
Always there in every way  
When its cold and dreary  
And your faith is growing weary  
You dont have to be afraidHes always there, just ask for what you need  
Hell be there if you believe  
Open up your heart, invite Him to come in  
Hell turn your life around  
And change you from within, waiting to careHes always there, ooh, oohHes always there to comfort and provide  
Hes always there right by your side  
To help you face tomorrow  
Through all the joy and sorrow  
His love you cant denyHes always there, just ask for what you need  
Hell be there if you believe  
Open up your heart, invite Him to come in and  
Hell turn your life around, heyOpen up your heart, invite Him to come in and  
Hell turn your life around  
And hell change you from within, waiting to care  
Hes always there
