Stand Tall

Heads Dirty

Now is the time Come on y'all Stand tall, live your life to the limit 'Cause haterism seem like a fuckin' epidemic And look at Ice Cube, I ain't no gimmick I'm straight from the hood, I got to represent it now Every day I think about my color And all the crazy shit we do to one another I ain't your blood brother, but I'm your 'cause brother Let's take it back to the love and how it was brother If not, we gon' pull these triggers Show the world we deserve to be called niggaz I make a fuck up like Don Imus Bow on his knees, and call me yo' highness You can too, you got the power to Don't let this motherfuckin' system devour you I won't pretend or act like I'm knowin' you But check it out I understand what you goin' through But remember, brothers and sisters You can still stand tall Just be thankful For what you got I know what y'all motherfuckers thinkin' Here comes another rapper with a song about hope All you wanna hear is a song about dope And how a nigga got mo' money than the Pope But he'll never tell you when he drop the soap No, Ice Cube is here to drop you a note 'Cause some of our folk used to hang from ropes And some of our people used to hang from trees Now the only thing hangin' motherfuckers is deez So, get your mind right and I'ma rhyme right Fuck the limelight and a blind dyke I'm the sunlight, too bright to look When it's all said and done I should write the book You too cool for school, too old to know? Get your ass off the grassroots and let 'em grow I understand, it ain't no love lost But little kids, it ain't no Santa Claus

But remember, brothers and sisters You can still stand tall, stand up Just be thankful, yeah For what you got, f'real I was born in the mud but I came out clean That's 'til the government tried to intervene Tried to lock me up when I was only nineteen Don't never ever, ever let 'em kill your dream I make shit raw that piss off the law If you want some fake shit turn this off If you want some realness I know you can feel this Maybe we can heal this just like an illness Black on black, I got'cho back People don't think that we know how to act Just because our neighborhood is filled with crack And the CIA won't take it back Never on top, always on the bottom Never put your trust in Hillary Rodham 'Cause I can tell you now, it's gon' turn out rotten Keep on pushin', get 'em 'til we got 'em But remember, brothers and sisters You can still stand tall, stand up Just be thankful, f'real For what you got Raise your hand if you sick of this bullshit In the belly of the evil empire
