

# Something You Might Like

## Puggy

Everybody wants to know  
How you feel  
So maybe you could sing  
Singing's not a sinEverybody wants to know  
What you're doing here  
Maybe you could dance  
Come on shake your pantsEverybody wants to know  
Where you coming from  
Did you fly here in a ship  
Ride a black hole for a clickEverybody wants to know  
If you're sweet  
Please don't shoot us with a gun  
Or that laser by your feetHere something that you might likeEverybody wants to know  
If you're happy of ere  
Would you like to buy a home  
Live in London or in RomeEverybody wants to know  
If you're our friend  
In the endWas it something I said  
Was it something I said  
That you could never forget  
That you could never forgive
