Swept Away

The xx

Take me to that place
Where it's control I lose
I'm soothed by you, you take it all away
I lose to you, surrendered at the start of the game
We're right here, always been
Hide away, I hide away with you
I let the world just slip away
Your little masquerade, I'm sure of the mood
The moments we've shared
Always ended too soon
Part of you stays a while
Even when you're far away
How so far away, yet you feel so near
