

It's All Over

East 17

you know whatcha want,
never gonna get it
They say they never heard,
when you know that you said it
Finding a fine time to fuck up with your mind
They plant the seed to grow,
then close the show
Every day you wake up,
you never know where ya heading
you know you gotta survive,
so somethin' needs selling
you keep yelling,
but no one ever hears ya
you silence violence
Now they fear yaBang!
It's all over
BANG! BANG!
It's all over
There's people inside for things they never did
They were never free on the streets
Now they're doing a year bid
And they call that justice
Can this, must this
Carry on?
Before long
There will be a revolution
And I don't think that they want this
I can see a revolution
And I don't think that they want this
High, that's where some go to get away
Some people go too far, fly away
Disease killing with ease, like it's outta control
Like a pest control on fleas
Please!
Stop defending the system is ending
you got nowhere to go,
played the final card
It's hard but truth is like proof
Can't be ignored

When Michael and the angels come for warWar it's all over

 War it's all over

 War it's all over

 War it's all overBang!

 It's all over

 BANG! BANG!

It's all overOooww controlling the mind of man

 The beast designed the plan

 But can it last for so long so wrong?

 What is going on,

 gotta re-arrange it

 But if you don't change it

 There will be a revolution

 And I don't think that they want this

 I can see a revolution

And I don't think that they want thisMichael and the angels come for warWar it's all over

 War it's all over

 War it's all over

 War it's all overBang!

 It's all over

 BANG! BANG!

 It's all over
