Pornorphans

I just can't understand and I don't know how anyone can
cause with every passin' day it gets worse in every way,
it's time that we make a stand, it's time that we make a stand
Sit here and wonder why how many more people gotta die
before we're gonna learn how many got to burn until we all realize,
until we all realize
See it everyday, it never goes away, never slowing,
always growing, never going away
This is the day, you'll see our way, we've had enough,
some things are gonna change, the future's bright, people unite,
better believe you're in for a fightBehind smiles and pageantry lies a vile and sadistic history,
insidious design, deceitful and sublime, feeding on misery, feeding on miserySee it everyday, it never goes away, never slowing,
always growing, never going away
This is the day, you'll see our way, we've had enough,
some things are gonna change, the future's bright,
people unite, better believe you're in for a fightThe world's got a bad disease and I think I got a fucking remedy,
molotov cocktail, freedom will prevail, a new world society
We're not gonna be ignored, believe us this means war,
something you can trust, you shouldn't fuck with us,
not gonna take it anymore, we're not gonna take it anymoreSee it everyday, it never goes away, never slowing,
always growing, never going away
This is the day, you'll see our way, we've had enough,
some things are gonna change, the future's bright,
people unite, better believe you're in for a fight,
this is the day, you'll see our way, we've had enough,
some things are gonna change, the future's bright,
people unite, look out, you're in for a fight
