

Brave

Rachel White

You can try to tell me I can't
You can try to tell me it's hard
You can try to say almost nobody makes it that far
But I'm gonna be leaving today
Cause I know in my heart what's in store
And when one thing don't work
It'll open another door When you know what you want
You can make it happen
Though it might not go as you planned
Cause things have a way
Of feeling crazy and seeming out of hand
Oh, but we were born to be brave
And made to be strong
Even when we fall apart
So come on, get up, and just do the best you can
We're gonna make it in the end Yeah, my friends always say
That I'm reaching way too high
I just smile and say
That I'm reaching for the sky
But I know that I can do it
And I know that I'll be alright
Someday I know
That I'll be able to fly When you know what you want
You can make it happen
Though it might not go as you planned
Cause things have a way
Of feeling crazy and seeming out of hand
Oh, but we were born to be brave
And made to be strong
Even when we fall apart
So come on, get up, and just do the best you can
We're gonna make it in the end Cause we were born to be brave
And made to be strong
Even in our weakest times
Sometimes life can change for the better
Overnight When you know what you want
You can make it happen
Though it might not go as you planned
Cause things have a way

Of feeling crazy and seeming out of hand
Oh, but we were born to be brave
And made to be strong
Even when we fall apart
So come on, get up, and just do the best you can
We're gonna make it in the end
In the end
