

What Have You Got Against Love

[Billy Dean](#)

There's a distance in your eyes
You don't wanna get too close
And I don't know why we're good togetherWe've come so far
So I can't understand
Why I can't ever get to your heart, tell meWhat have you got against love?
What have you got against us?
Won't you tell me what's the hold up
What have you got against love?A tragic romance, a bad goodbye
Did somebody make you think
Love was made to die?If that's the reason you're holding out
Don't put the blame on the one who wants you
And needs you, now, tell meWhat have you got against love?
What have you got against us?
Won't you tell me what's the hold up
What have you got against falling?Why do you keep it all in?
Won't you tell me what's the hold up?
What have you got against love?What have you got against love?
What have you got against us?
Won't you tell me what's the hold up
What have you got against love?
