

Reach (Demo Version)

[Mat Kerekes](#)

It was something you said
as you slipped into bed
You laid on your chest, to rest your head. You're falling asleep.
You reached out for me.
Your body is weak, so you reached out for me. You're staying awake,
You're wasting away,
You're spending all day on your way. The shine in your smile,
Stay for a while
Oh that shine in your smile
Would you stay for a while?
