Lady With A Bluebird

America

She came out of the blue and into my world
She came out of the blue and into my world
I went out of my head over you
She was a lady with a bluebird sleepin' in her chair
She was dreamin' 'bout a girlfriend and wishing she was there
She was a lady with a bluebird
Under the bridge I saw Mercury flow
Between me and you and a fine tooth comb
She came out of the blue and into my world
She was a lady with a bluebird sleepin' in her chair

She was dreamin' 'bout a girlfriend and wishing she was there
She was a lady with a bluebird
I close my eyes, I still see blue
I hear her voice, I'll wait for you
I still see blue
She came out of the blue and into my world
Oh, she came out of the blue and into my world
She was a lady with a bluebird sleepin' in her chair
She was dreamin' 'bout a girlfriend and wishing she was there
She was a lady with a bluebird
