

# Hush Boy

## Basement Jaxx

Crazy Itch Radio tunes for you  
So there we were at a table for two  
Was with a glass of bubbly and my brand new shoes  
He found a restaurant on the Internet  
This Mexican place but they hadn't finished it yet  
He took my hand and said  
I love your eyes, your lips, your hands, your toes  
He seemed intoxicated  
As he started to chat a little X-rated  
I put my fingers to his lips and I said Hush, boy  
Do you want me for your girlfriend?  
Just take it slowly, boy  
There's no need to rush it Hush, boy  
If you want me for your girlfriend  
C'mon boy, don't blow your chance  
We all need a little romance  
So the food was good, I had a chicken fajita  
But he finished my plate and had four margaritas  
As we gazed into each others eyes  
His ex walked in with her brand new guy  
My man, he tried to chomp on me  
To kiss my arms, my legs, my hips, my lips  
He knocked the drinks everywhere  
As he started to make an apology  
I covered his mouth with my hand and I said Hush, boy  
Do you want me for your girlfriend?  
Just take it slowly, boy  
There's no need to rush it Hush, boy  
If you want me for your girlfriend  
C'mon boy, don't blow your chance  
We all need a little romance Hush, boy  
Yeah, yeah, yeah  
Just for the first date  
La la la la Hush, boy  
You shouldn't worry  
'Cos I like you  
We should have some fun Seamlessly  
Those butterfly kisses all over me  
Love dancing eyelashes  
Sometimes dreams come true I know I talk too much most of the time  
Especially when I'm on the beer or on the wine  
You just make me wanna push your buttons in  
Too much girl when you blush Hush, girl, you M O V E me

L O V E, that's all that's coming from me  
You're so sexy when I'm treading on dangerous ground  
You bite your lips, I just get hard when I see you frown  
I want you to be my one and onlyHush, boy  
Do you want me for your girlfriend?  
Just take it slowly, boy  
There's no need to rush itHush, boy  
Do you want me for your girlfriend?  
You know I don't wanna fuck things up  
'Cos I'm into you much too muchCome on, give me a bit of my time  
Before you make up your mindHush, boy  
You shouldn't worry  
'Cos I like you  
We should have some fun
