Powerless Monster

An Early Ending

I can't stop the sun from rising
I am powerless to stop anyone from anything
But I plead on my knees just let me linger a little longer in the darkness
I can't take the reality of what i've done or how many times I've failed you
There is no hope for saving me
A circle of hope that is ending
I'm tired of the pain,
I'm sick of pretending that everything is fine
We were built to stand togetherWill you piece me back together?
Not even I can solve this
Will you finish what you started?
Locked deep inside of my chest,It seems that all hope is lost
Am i too scared to see what mystery stands behind
A mystery of unknown and i never will find it
Find it.She will never wake
The concept of fire will spread like disease
I sail through these flammable seasThere is no hope for saving me
A circle of hope that is ending
I'm tired of the pain,
I'm sick of pretending that everything is fine
We were built to stand togetherWill you piece me back together?
Not even I can solve this
Will you finish what you started?
Locked deep inside of my chest,
