

Shining Star

Diesel Boy

I drive by your house its late / Your silhouette / In the window / I want to stand on your front lawn / With a
radio / Playing our song / Like John Cusack / In Say Anything / But acting scares me / And so does everything /
You'll always be my shining star / And I wonder how you are / And why you haven't called / I miss the way
you look at night / Standing before me / In just your panties / I want to get lost in your hair / I want to feel you /
Like I used to / And do you miss me? / Like I miss you / Remember our tree? / The way I kissed you
