

# Be There

## Allstar Weekend

Little miss laying in the sun  
Got a lot on her mind and to get off of her chest  
Dreaming to live life out on the west  
She don't care what it takes to get there  
A little kiss now I'm on the run  
Give chase 'til I straight up run out of breath  
Pray to God that I'm passing the test  
I don't care what it takes to get there

You can stay and I mean it  
Every day and I mean it  
If there's a way then I'll be there  
Bend over backwards I'll be there  
You can stay and I mean it  
Every day and I meant it  
If there's a way then I'll be there  
Be there, be there  
Bend over backwards I'll be there

A little quick now I jumped the gun  
Give it a rest 'cause she's not just looking for sex  
She's a whole level ahead of the rest  
I'll just stare if we get there  
Need a fix can you give me some?  
Wait a minute so you're not just losing the dress  
Keep it moving while I'm holding my breath  
We don't care what it takes to get there

You can stay and I mean it  
Every day and I mean it  
If there's a way then I'll be there  
Bend over backwards and I'll be there  
You can stay and I mean it  
Every day and I mean it  
If there's a way then I'll be there  
Be there, be there  
Bend over backwards I'll be there  
Be there, be there, be there

Bend over backwards I'll be there

From now 'til forever  
I'll be there for you whenever  
To shelter you from the weather  
I'll hold you down(down)  
I'll hold you down when you're thinking there's nobody else  
I'll be around when you're looking for someone to help  
I'll bend over backwards and upside down  
Be there like MJ singing it out

You can stay and I mean it  
Every day and I mean it  
If there's a way then I'll be there  
Bend over backwards I'll be there  
You can stay and I mean it  
Every day and I mean it  
If there's a way then I'll be there  
Bend over backwards and I'll be there  
Be there, be there, be there

[I'll be there,(x4)  
(bend over backwards I'll be there)(x6)  
(be there)(x8)][

---
