So Long June

Cold(Superfiction)

What the hell
Did the moon just align with the stars
Breathe the night in
It's electric the sudden intensity starts
Shining brightly
If we move we could fall to the earth from the line
Hold on tightThen she said she had a loaded gun
It sounded like a lot of fun
So long June
Then she died next to the motorcade
Everyone was watching
So long JuneWhen she fell my whole world changed the moment she sighed
Hold me tightly
The eclipse of the heart
Where's the potion it's fine
I'll be right here
If we move we could fall to the earth from the line
Hold on tight dearThen she said she had a loaded gun
It sounded like a lot of fun
So long June
Then she died next to the motorcade
Everyone was watching
So long JuneThen she said she had a loaded gun
It sounded like a lot of fun
So long June
Then she died next to the motorcade
Everyone was watching
So long June[News reporter announces]
This morning, Princess June was declared
Dead outside her hotel in Liverpool. Reason of death? [pause]
Hold on everyone, this is hard, give me a second [pause]
Reason of death?Then she said she had a loaded gun
It sounded like a lot of fun
So long June
Then she died next to the motorcade
Everyone was watching
So long JuneThen she said she had a loaded gun
It sounded like a lot of fun
So long June

Then she died next to the motorcade
Everyone was watching
So long June
So long June
