Eyesore

Janus

Hearing your words out of my mouth again
Leaves me stuck with the key to
All these reasons you got in my head again
Buried here inside of me

Return all of this to sender
The mirror spoke to me and showed
All of this pretending is catching up to me

Lights out, wake up, stay calm, decide
Reach up, stand or be an eyesore

Lights out, wake up, stay calm, decide
Reach up, stand or be an eyesore

Staring out and over my words again
Makes me start to believe that
Wearing your lies over these words of mine
Always feels like my mistake

Return all of this to sender
The mirror spoke to me and showed
All of this pretending is catching up to me

Lights out, wake up, stay calm, decide
Reach up, stand or be an eyesore

Lights out, wake up, stay calm, decide
Reach up, stand or be an eyesore

Nothing is more important
Than what people think about you
The worry, the wonder... it's all worth it

Return all of this to sender
The mirror spoke to me and showed
All of this pretending is catching up to me

Lights out, wake up, stay calm, decide

Reach up, stand or be an eyesore

Lights out, wake up, stay calm, decide
Reach up, stand or be an eyesore
