

Everything Is Ending

Chameleon Circuit

I'm getting married in the morning
I took off my engagement ring
It was the night before my wedding
That was the night we started running
Why would you need comforting?
Amy: I nearly died
Alone in the dark, I couldn't open my eyes
And it made me think about what I want
About who I want
Everything is ending
I can't believe I didn't see it sooner
I know that this is what I need to do
Even though you haven't got a clue
Everything is changing
I have to keep you by my side tonight
And this must be
Why you found me
Why you found me
You're not scared of anything
You know I'm an alien
You have so many empty rooms
You really ought to get that seen to
Why would you need comforting?
I nearly died
Alone in the dark, I couldn't open my eyes
This would be too hard, why can't you open your eyes
(And it made me think about what I want)

I'll think about how to stop this from going on
(About who I want)
'Cause your life doesn't make any sense
Everything is ending
I can't believe I didn't see it sooner
I know that this is was I need to do
Even though you haven't got a clue
Everything is changing
I have to keep you by my side tonight
and this must be
Why you found me

Why you found me
You're getting married in the morning!
That's a long time away
You're human, you're Amy!
This is my fairytale
Listen to me, I'm/You're nine hundred and seven
Don't you know what that means?
Doctor, you're sweet - whispered: hold that thought
Everything is ending
I can't believe I didn't see it sooner
I know that this is what I need to do
Even though you haven't got a clue
Everything is changing
I have to keep you by my side tonight
And this must be
Why you found me
Why you found me)
