

Electric Rainbow

Minus the Bear

What did you do?
What did you do?
You got some heat on you,
Got some heat on you.They've been tracing all your moves.
Your mark has made you his,
And if you want to live,
Let me suggest this:"Get a gun,
And get a car.
Get on the 25 South to Mexico.
Find some place and lay low, just lay low."I just need to check the score.
Because girl,
You've got to move.Oh, stay lonely, stay quiet.
Stay, and you'll keep breathin' air.How did it go so wrong, so fast?
A confidence and then a money grab.
Simple enough, simple enough a plan.
It all went to shit and you're on the run,
At least you got the cash.At least you got the cash.Oh, stay lonely, stay quiet.
Stay, and you'll keep breathin' air.
Oh, stay lonely, stay quiet.
Stay, and you'll keep breathin' air.Air,
You'll keep breathin'.The road in front of our protagonist...
Rides in.Then you'll slip this dough,
Under pillow,
Again.
Again.Don't bring no lights on you.What did you do?
what did you do?
You got some heat on you.
Got some heat on you.
They've been tracing all your moves.What did you do?
What did you do?
You got some heat on you,
Got some heat on you.
What did you do?What did you do?
