

Trust Me

Devvon Terrell

[Intro: Devvon Terrell]

Baby if you don't trust me what we do

Aw yeah

Oh no no

You fell away

Yeah, yeah[Verse: Devvon Terrell]

You went through my phone again

But you pretend you didn't do it

No new messages you read them all

I ain't even seen my missed call

So why you lie to me baby

Got so many issues but i still be fucking with you

That's our biggest problem babe

We so off and on

All the trust is gone

Fell away

When you talkin' bout me to your friends

Talking 'bout our problems

Know they don't know what you talkin' bout

Cause they never had something real

Going through all of my pictures

And not even reading the caption

Tell me what happened

What did I do with my actions

Got you frustrated and constantly snapping

Back in the day we were flexin

Now we sit around and just talk about all of my exes

I'm past it so should you

Can't get through to you

I tell you the truth

I need you to accept that[Hook: Devvon Terrell]

I know so many girls call me

They want yo nigga leave them be

If they wanted yo man then tell me how would you feel

Got nothing left ok

Can you answer this question, do you

Trust me?

Baby do you trust me?

Baby do you trust me?

Baby do you trust me?
Baby can you answer me?
Baby if you don't trust what we doin'?
Baby can you answer me?
Baby if you don't trust what we doin'?
Do you trust me?
Baby do you trust me?
Baby do you trust me?
Baby do you trust me?[Verse 2: Devvon Terrell]
I know you getting in your feelings when you listening to BeyoncÃ©
But I ain't that nigga that she in there singing about
Tell me the problem
Really be you with the problem
Cuz you the one that need to fix it
I don't want to put it all on you, but you know it's true
And baby that's a fact though
Never know how to act though
Really thinking that I'm up to something
Got another phone and it's just for business
Every time it ring you be like "Who is this?"
Got to stop this, you messing my shit up
Everybody know I got the girl that turns up
Reputation is so abrasive
Friends and family are like "Why you take this?" Love
Oh yeah that's that shit right there
Mess you up and there's no comparison
Giving all that power to a person is just trouble
And I never ask you for this
This issue that we holding
Is how these other females just be on it
Tryna tell you[Hook: Devvon Terrell]
I know so many girls call me
They want yo nigga leave them be
If they wanted yo man then tell me how would you feel
Got nothing left ok
Can you answer this question, do you
Trust me?
Baby do you trust me?
Baby do you trust me?
Baby do you trust me?
Baby can you answer me?
Baby if you don't trust what we doin'?
Baby can you answer me?
Baby if you don't trust what we doin'?
Do you trust me?

Baby do you trust me?
Baby do you trust me?
Baby do you trust me?[Outro: Devvon Terrell]
Baby if you don't trust what we doin' (x2)
