

Another Dance

Jordyn Taylor

I just can't stop
Tonight it's all us
Dance till we drop
Let's go into the sun And the louder that it gets
The more you feeling this
The night is taking over you
And if I still let you move
The more I'm feeling you
I know you feel this energy too So I, just need another dance tonight
Ye I, just want another dance tonight
Another dance with you
Another dance with you
Don't walk away
Don't let go of my hand
Just say you'll stay, stay
Forever if you can And the louder that it gets The more you feeling this
The night is taking over you
And if I still let you move
The more I'm feeling you
I know you feel this energy too So I, just need another dance tonight
Ye I, just want another dance tonight
Another dance with you
Another dance with you
And the louder that it gets
The more you feeling this
The night is taking over you
And if I still let you move
The more I'm feeling you
I know you feel this energy too So I, just need another dance tonight
Ye I, just want another dance tonight
Another dance with you
Another dance with you
