I Just Need Myself (PSI Studio Demo 1/78)

The Cure

I know that I don't love you
But I tell you that I do
But I only buy you flowers
If I want anything from youYou say that if you'll leave me
It will put me on a shelf
But I don't need you girlI just need myself
I just need myselfYou trust in all my lies
You'll believe it when you see it
That I'll be with you forever
So you let me have my wayI say stay with me baby
And I lavish you with wealth
But I'll make it that I'll leave you'Cause I just need myself
I just need myselfI know that I don't love you
But I tell you that I do
But I only buy you flowers
If I want anything from youYou say that if you'll leave me
It will put me on a shelf
But I don't need you girlI just need myself
I just need myselfI just need myself
I just need myselfI just need myself
I just need myselfI just need myself
I just need myselfI just need myself
