Somewhere Out There

Action Item

Six billion people in the world
But all i need is you
Ten million seconds i've wasted
I would waste them again with you'Cause it's a big, big world
Big, big hearts got so much love to give
If you could show me how to find you now
And somehow let me inOhhh, i know you're out there, somewhere out there
Ohhh, i know you're out there, somewhere out there
And i won't give up until i find that someone
Ohhh, i know you're out there, somewhere out thereI wonder where i'll be, will you find me, or will i crash into you?
Just hope that the clock strikes at midnight
And i know the right thing to do'Cause it's a big, big world
Big, big hearts can't be alone too long
And if your heartbeat seems to get too weak
I'll show you love so strongOhhh, i know you're out there, somewhere out there
Ohhh, i know you're out there, somewhere out there
And i wont give up until i find that someone
Ohhh, i know you're out there, somewhere out thereCould you be, closer than it seems?
I know it's a struggle, and it feels like there's something in between'Cause it's a big, big world
Big, big hearts got so much love to giveOhhh, i know you're out there, somewhere out there
Ohhh, i know you're out there, somewhere out there
Now i wont give up until i find that someone
Ohhh, i know you're out there, somewhere out there
