

Spontaneity

Bahamadia

Straight outta the metro rhythm central I'm innovative at thee intro
cause I go slow moe but never slow poke but never joke dope but never
coke spits a riddle like flim loose with my lyrics like double jointed
limbs I twist and I bend common episodes past freak mode the monstrousbass beneath my pace be like morse
code slash beep slash beep scanners
zero in to the system in your jeep I'm out there with cool Keith and
Ced-Gee and De La inventors of my third seeing eye with futuristic
vision I'm not among loony nut cakes on a mission I gets in where Ifit in cause life's too short so you could all
label me weirdo but yo
I know it's talent ...

Chorus Mad explosive spontaneity

At present I speak the new beginning when every other trend fell shortso who'll be the shareholder of my kinda
thoughts besides the studios'cause the gludious max-a-must lack ability to scoop all capabilities ofspontaneity
within me depicted kicked it true vibes pops jazz butcollaborated with the cool known flows but unfamiliar
grooves sootheindividual moods like soul food for thought ...Rip here be dizz like everybody's on it cause
eternal verbal expansionkeeps enhancing brain child's ability to like surpass a swarm of bootyass no grass roots
having ass mc's with luke warm degrees trying toget hot like sun rays but save your jazz for Sun Ra you don't
want tospar my skills fill up thee outer limits like mars and you's a littlestar I jacked your twinkle when I
excelled well like Tinkerbelle up tohigher levels and heights cerebral flow takes flight on airborne timeI'm a
prime candidate of specimen in your walkman as you're listeningI make things happen cause I'm the captain
keepin' this greatChorus Mad explosive spontaneity (repeat)
