

# As I Am

## Goo Goo Dolls

Yeah, I tried so hard to make it  
And then I watched it slip away  
And the hardest thing to face  
Is the silence in the space  
The times I feel so empty through the day  
Can we make it through the darkness  
And we will make it through the day  
Calling out for you again  
You always find my way  
Calling out for you, you know  
You heal these empty days  
And it's all because you take me as I am  
And it's all because you take me as I am  
You know I run to find the answers  
But what I need to find is you  
And I don't need anything  
No, I don't need anything  
Because I know you always take me as I am  
You know you get me through the darkness  
You know you get me through the day  
Calling out for you again  
You always find my way  
Calling out for you, you know  
You heal these empty days  
And it's all because you take me as I am  
And it's all because you take me as I am  
Calling out for you again  
You always find my way  
Calling out for you, you know  
You heal these empty days  
And it's all because you take me as I am  
And it's all because you take me as I am  
All because you take me as I am
