Brave New World

Covenant

Where is the promised land?
Where is the brave new world?The earth is shaking
Down below our feet
We move in wonder
And we generate the beatOur blood is boiling
Wonderful in heat
We glow like embers
Dancing in the darkWhere is the promised land?
Where is the brave new world?
Where do all dreams go when they die?
Oh, we can move the streets todayWhere is the promised land?
Where is the brave new world?
Where do all dreams go when they die?
Oh, we can move the streets todayWhere is the promised land?
Where is the brave new world?
Where is the brave new world?Where is the promised land?
Where is the brave new world?The lights are fading out
Before our eyes
We lose each other
And we celebrate the peaceOur lives are changing
Faster than we think
We flow like dancers
Crashing in the darkAnother morning broken
Shattered sheets of lead
Clouds the size of oceans
Inside and above our headsWhere is the promised land?
Where is the brave new world?
Where do all dreams go when they die?
Oh, we can move the streets todayWhere is the promised land?
Where is the brave new world?
Where is the brave new worldWhere is the promised land?
Where is the brave new world?
Where do all dreams go when they die?
Oh, we can move the streets todayWhere is the promised land?
Where is the brave new world?
Where do all dreams go when they die?
Oh, we can move the streets todayWhere is the promised land?
Where is the brave new world?
Where is the brave new world?Where is the promised land?

Where is the brave new world?
Where do all dreams go when they die?
Oh, we can move the streets todayWhere is the promised land?
Where is the brave new world?Where
