Brave New World

Covenant

Where is the promised land?

Where is the brave new world? The earth is shaking

Down below our feet

We move in wonder

And we generate the beatOur blood is boiling

Wonderful in heat

We glow like embers

Dancing in the darkWhere is the promised land?

Where is the brave new world?

Where do all dreams go when they die?

Oh, we can move the streets todayWhere is the promised land?

Where is the brave new world?

Where do all dreams go when they die?

Oh, we can move the streets todayWhere is the promised land?

Where is the brave new world?

Where is the brave new world? Where is the promised land?

Where is the brave new world? The lights are fading out

Before our eyes

We lose each other

And we celebrate the peaceOur lives are changing

Faster than we think

We flow like dancers

Crashing in the darkAnother morning broken

Shattered sheets of lead

Clouds the size of oceans

Inside and above our headsWhere is the promised land?

Where is the brave new world?

Where do all dreams go when they die?

Oh, we can move the streets todayWhere is the promised land?

Where is the brave new world?

Where is the brave new worldWhere is the promised land?

Where is the brave new world?

Where do all dreams go when they die?

Oh, we can move the streets todayWhere is the promised land?

Where is the brave new world?

Where do all dreams go when they die?

Oh, we can move the streets todayWhere is the promised land?

Where is the brave new world?

Where is the brave new world? Where is the promised land?

Where is the brave new world?
Where do all dreams go when they die?
Oh, we can move the streets todayWhere is the promised land?
Where is the brave new world?Where
