

# Silhouettes (All Eyes Above)

## Rookie of the Year

Click my heels three times  
Take me anywhere but here  
Whisper the words  
Let's see this clearly This is all that remains  
So what more can you take?  
Another hit and miss  
As contagious as sin and you're gone Did you really wanna know what I was about?  
Did you really wanna know?  
Please your feelings out loud  
(Don't fade away) Blinded by the light, taking it over  
(Don't fade away)  
Your silhouette carries me home Your star can't leave with the angels above  
Hold them by their wings  
(All eyes above) You can change  
(All eyes above)  
You remain like a diamond in the sky Did you really wanna know what I was about?  
Did you really wanna know?  
Please your feelings out loud  
(Don't fade away) Blinded by the light, taking it over  
(Don't fade away)  
Your silhouette carries me home Take me away Did you really wanna know what I was about?  
Did you really wanna know?  
Please your feelings out loud  
(Don't fade away) Blinded by the light, taking it over  
(Don't fade away)  
Your silhouette carries me home Blinded by the light, taking it over  
(Don't fade away)  
Your silhouette carries me home
