

Boo Hoo (acoustic extravaganza version)

KT Tunstall

If I was lookin' for you
Would you be easy to find
Would I be lookin' all night
And if I got lost would you go lookin' for me
Or would you be alright on your own[Chorus]
Oh and in the light of day it feels right
Comfortable to the bone from head to toe
Come the evening when the shadows fall
Well I call your name but it's not the same
As having you hereIf I was a second too late
Or a moment too soon
Or an hour too long
Tell me baby would you wait a bit longer
I wonder if you would
Or would you be long gone
Would you be alone
Would you be aloneOh in the light of day it feels right
Comfortable to the bone from head to toe
Come the evening when shadows fall
Well I call your name but it's not the same
As having you here
As having you here
As knowing you're near
As feeling you there
As knowing you care
As whispering in your ear
As my hands in your hair
As knowing you're there
