Foreign Language

Nine Stories

Boys speak in rhythm and girls in code
Doo doo doo doo, doo doo doo doo
Tell it to me straight, give it to me now
Face forward, face forwardBoys speak in rhythm and girls in code
Doo doo doo doo, doo doo doo doo
Tell it to me straight, give it to me now
Face forward, face forwardSpeaking foreign language, nothing I can translate
You're speaking foreign language, nothing I can dictate
You're speaking foreign languageBoys speak in rhythm and girls just lie
Doo doo doo doo, doo doo doo doo
Tell me how you feel, come out of the dark
And we can head back home and I'll know where to startSpeaking foreign language, nothing I can translate
You're speaking foreign language, nothing I can dictate
Speaking foreign language, nothing I can translate
You're speaking foreign languageWhere did we go wrong? We need medication
In this miscommunication
Where did we go wrong? Our conversation's weakened
Our conversation's weakenedBoys speak in rhythm and girls in code
Doo doo doo doo, doo doo doo doo
Boys speak in rhythm and girls just lie
