

Bouncing off Clouds

Tori Amos

Bouncing off clouds we were
Is there a love lost and found
Make it easy, make this easy, it's not as heavy as it seems
Wrapped in metal, wrapped in ivy, painted in mint ice cream
We could be bouncing off the top of this cloud
(I'll put on my silver)
Bouncing off the top of this cloud
Failure to respond, but I did, but did you listen
Bouncing off the top of this cloud
(I'll put on my silver)
About what you said, has it come to this?
(I'll put on my silver)
Bouncing off the top of this cloud
Well, you can stare all day at the sky
But that won't bring her back
That won't bring her back, you say you're waiting on fate
But I think fate is now, I think fate is now waiting to our lives
Make it easy, easy, easy, we could make this easy
Easy love, easy, we could make this easy
Make this easy, it's not as heavy as it seems
Make this easy, make this easy it's not as heavy as it seems
Wrapped in metal, wrapped in ivy
Blue umbrellas smiling
We could be bouncing off the top of this cloud
(I'll put on my silver)
About what you said, has it come to this?
(I'll put on my silver)
Bouncing off the top of this cloud
(I'll put on my silver)
About what you said, has it come to this?
(I'll put on my silver)
Bouncing off of clouds we were
