

# Cause

## All

Up from the mud, one seed, four seasons  
Just because is good enough of a reason  
Every pain you've ever known  
Was coaxing diamonds out of coal Have no fear at all  
You have a soul, it can't be owned  
Take the heat, take control  
You're free and that's the only way to be Up from the dust, one heart, ten fingers  
Just because is good enough, it's the only reason  
Every pain you've ever known  
Was coaxing diamonds out of coal Have no fear at all  
You have a soul, it can't be owned  
Take the heat, take control  
You're free Every pain you've ever known  
Was coaxing diamonds out of coal Have no fear at all  
You have a soul, it can't be owned  
Take the heat, take control  
You're free and that's the only way to be
