

# Mental Repression

## Eighteen Visions

    punish me let me down.  
    punish me i let you down.  
    as i come near the end is here.  
        eternal darkness is mine.  
        i'm left to suffer.  
            this i accept.  
        punish me let me die.  
        punish me i live a lie.  
        steel. lead. concrete. fire.  
    which do i choose for my departure?
