Neutered Fruit

St. Vincent

Did you ever really stare at me?
Did you ever really stare at me?
Like I stared at you

I ate flowers in the backyard
Bought finely neutered fruit
Shot a hundred arrows at a knoll
A hundred sparrows blue

Did you ever really stare at me?
Did you ever really stare?
Did you ever really stare at me?
Like I stared at you

Don't run
Don't run little rabbit run
Don't run
Don't run little bunny run

Did you ever really stare at me?
Did you ever really stare?
Did you ever really stare at me?
Like I stared at you

Did you ever ride a bear for me?
Did you ever really care?
Did you ever really care for me?
Like I cared for you

Don't run away
Don't run away
Don't run away
Don't run away
