

# Come and Get It

## Blue Cheer

Let me hear, let me hear the way you feel  
I been gone so long, I been riding on a spinning wheel  
Flashin' and scratchin', just a-feeling my pulse  
Yellin' and screaming and pound on the wall Coast to coast I been travelin' and I got to get more  
I been up all night just trying to make a score  
Hustle it, so fuss it, just make it some chick  
Pickin' on dolls and makin' that trick She's the piece of heart and I'm screamin' and kickin' it down  
Faster and harder, keep on drivin' it down the line  
Lookin' for head and feelin' so free  
Rubbin' my own in this ecstasy Tell me, tell me, tell me, tell me if you see  
It's the only way, the only way that I want it to be  
I can't explain, it's just not fate  
I got to keep on, this time I just ain't late
