

Lady Daydream

Jori Pearsall

If you forget it all, I will bring it with me
If you can't find the sea, I will take you there
Green, you still know me by name
Even though I'm losing
Doesn't make me a loser yet
You still know me by name, Green
I'll still be Lady Daydream
She took it all from me
Now I can't find my place
Do you 'member me
Do you know my face?
It could all be a dream, Green
