

Monster

Ghost Town

Advisory - the following lyrics contain explicit language:

Got a bottle in hand
Full throttle I'm back again
All the lives that I've wasted
This cycle will never end
(woah)
Got a picture of you and the life that we knew
Now the thoughts of your body is hauntin' me
It's all a show I got a place for the wicked to go
Got a mindset that nobody knows
Now this evil is taking control
And where's our freedom now
In a place we never wanted to be
Taking all my love away from me
Soon we'll take it to the fuckin' streets
And take back our liberty You're a monster
Nobody wants her
But me
So sharpen your teeth
Makes it easier to bleed
And I'm losing my mind in the middle of the night
When I'm hearing your screams
And you're dead asleep
It's all a show Got a place for the wicked to go
Got a mindset that nobody knows
Now this evil is taking control
And where's our freedom
Where's our freedom now
In a place we never wanted to be
Taking all my love away from me
Soon we'll take it to the fuckin' streets And take back our liberty (woah)
Take back our liberty! OHOHOH
Take back our liberty!

Take back our liberty!
(woah)Look what you've done to us
Look what you've done to us
Look what you've done to us
Look what you've done to usYou're taking all my love away from me..
You're taking all my love away from me..
ohohohSoon we'll take it to the fuckin' streets
I hope to God that you're in love with me
Now I'll drink myself slowly to sleep
To the sweet thoughts of you and me
