

10 Commandments(Feat. Lil Kim)

Lil' Mo

Ladies, I wrote me a manual
How to keep your man
These rules you must follow
My 10 commandments
(Oo, oo, oo)Let me break it down for you
Rule number 1
Never give him some on the first night
Rule number 2
Never bring your man around your crewRule number 3
Never call him first let him call you
Rule number 4
Never let him know your every moveRule number 5
Never tell him about your past
How many other lovers you've had?
How many other lovers went bad?
Make no exceptions
If you want it to lastGirl, you got to understand him
If you want to keep your man whipped
Follow my 10 commandments
And he'll keep coming back for more
And more and moreRule number 6
Never mix business with pleasure
Rule number 7
Never move in unless he tell yaRule number 8
Never tell your friends about your bedroom
Rule number 9
Never let them know his shoe sizeRule number 10
Should have been rule number 1
'Cos If you give in on the first night
Make sure you ride that thingScream his name
And he'll be yours for life
'Cos you know your excited
('Cos you know your excited)And you just can't fight it
And you wanna tell all your friends
But you've got to make sure loves intact
Because you want him to keep coming backGirl, you got to understand him
If you want to keep your man whipped
Follow my 10 commandments
And he'll keep coming back for more

And more and more Girl, you got to understand him
If you want to keep your man whipped
Follow my 10 commandments
And he'll keep coming back for more
And more and more There's never no such thing as giving him to much
'Cos if you want to wed with your man
You can never give enough
'Cos you get excited And wanna tell everybody
But you've got to make sure
Loves intact
Then it will help you bring him back I've been in this thing for years
It made me an animal
Me and my girl
Mo wrote you'll a manual Step by step booklet for you to keep
Your man in his place
And out the next girls' face
Rule number 1 Never give a dude money
Girl, don't be a dummy
Let the homie, stay bummy
'Cos once he start, he won't stop, that's it And all he gonna do is spend it on the next chic
Rule number 2
Before you give him some
It's your way Shoppin', a new car
That's what I call foreplay
Now don't get me wrong
Respect your man But if dude gets out of line
Then check your man
Rule number 3
Should have been rule number 1 Never go down
Till he licks you round
Your neck, your back, your pussy and ass crack
Rule number 4, 5 and 6 Very important lessons
Keep your man guessing
Never let him see you stressing
And if you love heres 7, 8, 9 and 10 Never ever, ever mess with his friend
See if you follow these
You'll have mad bred
To break a house on the beach And mad trips to jacob
He'll be home at night cooking you a steaka
And he'll keep coming back for more
On the wake up Girl, you got to understand him
If you want to keep your man whipped
Follow my 10 commandments
And he'll keep coming back for more
And more and more Girl, you got to understand him

If you want to keep your man whipped
Follow my 10 commandments
And he'll keep coming back for more
And more and more Understand
If you want to keep your man
And you want to hold on to him
Keep your man whipped Follow my 10 commandments
Ha, you got it
Ha, keep coming back for more
Understand Keep your man
My command
More and more and more
More and more and more
