Mystic Highway

John Fogerty

Lately I begin to wonder,
How's it all gonna end.
After all the flash and thunder,
Then its gone with the wind.All the stars in the heavens,
They been there to light my way.
Without knowin where Im going,
Probably get there anyway.Mystic highway that Im on
Ooh ooh, take me home
Mystic highway that I ramble
Ooh ooh take me home.This old road has been my lifeline,
My companion and my friend.
Like a rope around the universe,
Aint no beginning aint no end.Out across the constellations,
Theres a place behind the sun.
Everything is connected,
Everything and everyone.Mystic highway that Im on
Ooh ooh, take me home
Mystic highway that I ramble
Ooh ooh take me home.Down by the river on Saturday night,
Everybody waiting for a good time.
Smooth city slickers and loaded dice,
Take your money in a pig's eye.
Rain gonna fall, sun gonna shine,
Ain't no worry in my mind.
Big wheel rollin' cross the sky,
Ain't no worry in my mind.All the stars that I'm under,
Know the way I feel tonight.
All the miles I've been travellin'
Headin' back to the light.Mystic highway that Im on
Ooh ooh, take me home
Mystic highway that I ramble
Ooh ooh take me home
Ooh ooh take me home.
Yeah!
