

Longest Goodbye

Example

I don't know where we go to when we fade away
I've asked a thousand times on the road to mandala
We live to tell the tale and fight another day
I told an atheist that now's the time to pray
The sun has disappeared for all my life
And it won't reappear for all my life
We're changing world so slowly
I know this chain so well
We're only friends till morning
Well we'll figure it out ourselves
We'll figure it out ourselves
We're bigger than they can tell
Before the eclipse has come again
So we're up against the world Don't waste a second
Go, go choose a weapon
Don't waste a second
Go, go choose a weapon We're changing world so slowly
I know this chain so well
We're only friends till morning
Well we'll figure it out ourselves
Before the eclipse has come again
Before the eclipse has come again
Before the eclipse has come again
So we're up against the world
Against the world
Against the world The sun has disappeared for all my life
And it won't reappear for all my life
Don't waste a second
Go, go choose a weapon
Don't waste a second
Go, go choose a weapon
Before the eclipse has come again
So we're up against the world
