

Take Care

Hot Chip

And I don't deal in books, I don't deal in looks
And don't ask for my recommendations
And I don't know about, babies being born
And hits being hot, baby, what you got? Take care into the home
Take care, take care It's never bang, bang, bang
It's run, run, run
And I'm only on my way
Don't tell me where I'm at My heart is broke, broke, broke
And it's not for the cause of a lady
My eyes are choked, choked, choked
And it's no good looking at you
