

Reunion

[Skinny Lister](#)

Home, home, home is no home without you
It's nothing but bricks and stone
Oh darling I dream, dream, dream of your returning
Into your arms I'm thrown Wild Wild wind bring us together
Never again to part
Come on now roll on reunion
It's you who employs my heart Every time I see you
All the world is made new
Time time time is always between us
Well what are we waiting for
Come on now home, home, home set your sail homeward
Back to familiar shores Wild Wild wind bring us together
Never again to part
Come on now roll on reunion
It's you who employs my heart Every time I see you
All the world is made new
Despite the storm that tore threw
All the world is made new
And time is between us
Time is between us Every time I see you
All the world is made new
