

# The Ark

## Acid Drinkers

God, He called for rain  
So I built an ark but no rain came  
I was ashamed  
Man, he called for war  
So I built a gun and I joined the corps  
But I wasn't sure  
Love, she asked for more  
But what I gave only made her poor  
I wasn't sure  
The dove, she promised land  
As she laid the branch right into my  
There was no land  
What does it mean to be here?  
Well, I know because I can and I will  
Yes, I know because I can and I will  
What does it mean to be here?  
Well, I know because I can and I will  
What does it mean to be here?  
Well, I know because I can and I will  
Yes, I know because I can and I will
